

FIRST AID BANDAGE TIRITAS

MAIN SPECIFICATIONS

- A full range of dressings for maximum comfort in all applications.
- For the treatment of small wounds, suitable for sensitive skin. Before use check whether the skin is clean and dry.
- The Tiritas are available in different formats:

Tiritas detectable - Fast dressings in polyethylene film repellent to water and dirt, with synthetic adhesive and absorbent core; blue colored for easy detection. For rapid treatment of minor wounds. Especially suitable for easy visual and electromagnetic detection in the industry.

Plastic Tiritas - polyethylene and perforated material to facilitate perspiration. Resistant to water and dirt. Available in various formats.
