

PERMAFOAM FOAM POLYURETHANE DRESSING

MAIN SPECIFICATIONS

- High vapor permeable latex-free foam dressings with unsurpassed fluid handling.
- Highest moisture vapor transmission rate (MVTR) among foam dressings.
- Efficient foam layer absorbs wound exudate and wicks fluid away from wound bed.
- Waterproof outer membrane.
- Conform to difficult-to-dress areas including elbows, ankles, sacral and tracheotomy sites.
- PermaFoam Comfort adheres securely to cover and protect wound.
- Prevents maceration of skin and promotes optimal healing.
- Unsurpassed fluid handling.
- Simplifies cleansing of wound area and protects wound from bacteria and contaminants.
- Soft and comfortable.
- Fewer dressing changes.
- PermaFoam drainage dressings are not indicated for the management of third degree burns.
- Management of chronic draining wounds including pressure ulcers, leg ulcers and diabetic foot ulcers.
-

For use on medium to heavy exudating wounds.

- Ideal for use under compression bandaging system.
