

MOLESKIN ADHESIVE

MAIN SPECIFICATIONS

- Cotton material protector with pressure sensitive adhesive.
- Protects skin from friction.
- Relieves pain of corns, calluses and other sensitive areas.
- It can be cut into any size.
- Suitable for application in areas of the skin where objects are causing trauma, leaving the sensitive site.
- Made of cotton fabric, its application on the spot immediately relieves pain and prevents the continuity of the problem, which if not treated, could cause calluses or "injured" more serious.
- Usage is very simple, just cut down to size and apply on the sensitive site.
