

# LEUKOTAPE K KINESIO TAPE ADHESIVE

## MAIN SPECIFICATIONS

- Leukotape K is an elastic tape used to support the sensory functions. The stretchable cotton material works ideally with the skin's natural elasticity. The support is coated with a skin-friendly polyacrylate adhesive. It is permeable to air reducing the risk of maceration. The wave pattern of the adhesive can support the therapeutic effect. Leukotape K is very durable, sports and showering present no problem.
- Main uses: headache, back pain, lymph edema, muscular pain.
