

# CUTIMED PROTECT CREME SKIN PROTECTION BARRIER

## MAIN SPECIFICATIONS

- Cutimed Protect cream allows protection of large areas of skin at risk and from dangers related to the maceration. It is applied easily and simply, thanks to its light texture quickly absorbed. Does not leave a greasy film on the skin, is not sticky to the touch, it contains no alcohol or perfume, and does not reduce the adhesion of adhesives.
- Indications: Prevention of maceration and/or irritation caused by urinary and/or fecal incontinence.
