

ILEOHESIVE PLUS ILEOSTOMY POUCH 1 PIECE DRAINABLE OPAQUE

MAIN SPECIFICATIONS

- Great convenience and discretion.
- Lightweight, flexible, simple and easy to use.
- High skin protection.
- With Stomahesive protection - contact with the peristomal skin, offers maximum protection while having a healing effect in cases of skin abrasion.
- Incorporates impregnated charcoal filter with good deodorizing ability, ideal for device discretion.
- Covered with a lacy/porous texture to allow the absorption of perspiration, avoiding the unpleasant effect of "paste" the abdomen.
- Opaque.
