

OPTIPLAST C ADHESIVE BANDAGE

MAIN SPECIFICATIONS

- Ideal for all conditions requiring compression treatment and movement limitation and also for retention cleaning.
- Made of high quality stretch cotton, porous adhesive to prevent maceration of the skin and yellow line of the badge to allow the exact overlap of the alloy.
- It keeps the dressing firmly adhered during the prolonged treatment.
- It does not cut or mark the skin. Indicated for treatment of sprains, sports injuries, compression for varicose veins and ulcers and retention of dressings.
