

ASKINA OCULA EYE DRESSING

MAIN SPECIFICATIONS

- Hydrophilic cotton dress for placement in the eye area.
- Super absorbent.
- Very soft and air permeable, fill absorbent cotton (34% cotton, 66% polyester).
- Non-stick.
- I find suave and imperceptible, lasting with damping effect.
- For treatment and protection of eye injuries and wounds after surgery.
- Oval, 56 x 72 mm.
- Good adaptation in the eye area by oval shape.
- Available in sterile and non-sterile form.
